SUBJECT: Notice of Hearing

1. House Judiciary Subcommittee on Civil and Constitutional Rights Counsel Helen Gonzales, has notified us that the closed hearing re damage assessments due to leaks will take place on 30 June at 9:30 a.m., Room 2237 Rayburn House Office Building. All witnesses present at the pre-publication review hearing before the same Subcommittee with the exception of OPM will be asked to reappear.

2. While no final decisions have yet been made re format, Ms. Gonzales said she was going to try to keep it as informal as possible--perhaps "briefing" style around a large table with transcriber vice formal witness table with Members on the dias. The undersigned opined that the more informal the better with Mr. Willard as the spokesman and Agency individuals supporting. While she did not commit herself one way or another, she seemed attracted to such a proposal.

3. In addition to Members, Ms. Gonzales contemplates two other staffers besides herself being present. Their clear-ances are being verified and CIA will ask for a sweep team to monitor the room during the briefing.

4. Official notification via letter from Chairman Don Edwards (D., CA) is expected today.
